EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Roberta Pelletier, applicant's attorney, on Aug. 21, 2006.

The application has been amended as follows:

Cancel claims 13, 14, 18 and 19.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicants' claims 1 and 15 are limited to treating the first sol (wherein the first sol comprises metal oxide nanoparticles) with an organosilane, which distinguishes the claims from the process described in U. S. Patent 6,329,058 B1 which appears to treat nanoparticles which are separated from the mother liquor (which corresponds to the applicants' "first sol") with the organosilane: please see col. 6 Ins. 14-17 and also Ins. 43-49 in U. S. Patent 6,329,058 B1. U. S. Patent 6,329,058 B1 does not treat a first sol comprising metal oxides with the organosilane, but rather treats the metal oxide particles with the organosilane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Applicant's election of claims 1-12 and 15-17 in the reply filed on May 8, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The following references are made of record:

U. S. Patent 7,091,234 B1 disclosing a process for making hydrophobic metal oxide nanoparticles, and

U. S. Patent 5,686,054 disclosing a process for the silylation of inorganic oxides.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy C. Vanoy whose telephone number is 571-272-8158. The examiner can normally be reached on Mon-Fri 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman, can be reached on 571-272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
